Only the date of filing (§ 1.6) will be the date used in a patent term adjustment calculation, although the date on any certificate of mailing or transmission under § 1.8 continues to be taken into account in determining timeliness. See § 1.703(f). Consider "Express Mail Post Office to Addressee" (§ 1.10) or facsimile transmission (§ 1.6(d)) for the reply to be accorded the earliest possible filing date for patent term adjustment calculations.

EXTENSION OF TERM

NOTE: "Extension of Time in Patent Cases (Supplement Amendments) — If a timely and complete response has been filed after a Non-Final Office Action, an extension of time is not required to permit filing and/or entry of an additional amendment after expiration of the shortened statutory period."

If a timely response has been filed after a Final Office Action, an extension of time is required to permit filing and/or entry of a Notice of Appeal or filing and/or entry of an additional amendment after expiration of the shortened statutory period unless the timely-filed response placed the application in condition for allowance. Of course, if a Notice of Appeal has been filed within the shortened statutory period, the period has ceased to run." Notice of December 10, 1985 (1061 O.G. 34-35).

NOTE: See 37 C.F.R. § 1.645 for extensions of time in interference proceedings, and 37 C.F.R. § 1.550(c) for extensions of time in reexamination proceedings.

NOTE: 37 C.F.R. § 1.704(b)" . . . an applicant shall be deemed to have failed to engage in reasonable efforts to conclude processing or examination of an application for the cumulative total of any periods of time in excess of three months that are taken to reply to any notice or action by the Office making any rejection, objection, argument, or other request, measuring such three-month period from the date the notice or action was mailed or given to the applicant, in which case the period of adjustment set forth in § 1.703 shall be reduced by the number of days, if any, beginning on the day after the date that is three months after the date of mailing or transmission of the Office communication notifying the applicant of the rejection, objection, argument, or other request and ending on the date the reply was filed. The period, or shortened statutory period, for reply that is set in the Office action or notice has no effect on the three-month period set forth in this paragraph."

3. The proceedings herein are for a patent application and the provisions of 37 C.F.R. 1.136 apply.

In those instances where authorization to charge is included, processing delays are encountered in returning the papers to the PTO Finance Branch in order to apply these charges prior to action on the cases. ***WARNING:** Each paper or fee filed by "Express Mail" **must** have the number of the "Express Mail"
mailing label placed thereon prior to mailing. 37 C.F.R. 1.10(b).
"Since the filing of correspondence under § 1.10 without the Express Mail mailing label
thereon is an oversight that can be avoided by the exercise of reasonable care, requests for
waiver of this requirement will **not** be granted on petition." Notice of Oct. 24, 1996, 60 Fed.
Reg. 56,439, at 56,442.

January 10, 2003 states that the proposed new formal drawings filed September 12, 2002 are not acceptable. However, Applicants were only advised of the unacceptability of the drawings by an Official Communication mailed October 18, 2002, which included a Form PTO 948 Notice of Draftsperson's Patent Drawing Review which stated in pertinent part: "The Examiner will require submission of new, corrected drawings **when necessary**" (emphasis added). Applicants never received a notification setting a term for submitting new, corrected drawings, but instead received a notice of abandonment. Under the circumstances, and in view of the Notice mailed October 18, 2002, which appeared to indicate that a term would be set for submission of new, corrected drawings, it is respectfully submitted that the abandonment was premature and should be withdrawn.

Respectfully submitted,
